

• AVAILABLE FOR WORK

Andrey Caburnay

Web Developer — React · React Native · Node.js

I build real products that real people rely on — from a government hub serving Montalban residents to mobile apps people use every day.

PROFILE

An IT graduate and web developer from the Philippines who ships real things — the official Gender and Development platform for Montalban, Rizal, and a DTR tracking app used by working students. I sweat the UX details, write code that lasts, and measure success by whether people actually use what I build.

FEATURED PROJECTS

GAD Corner Website

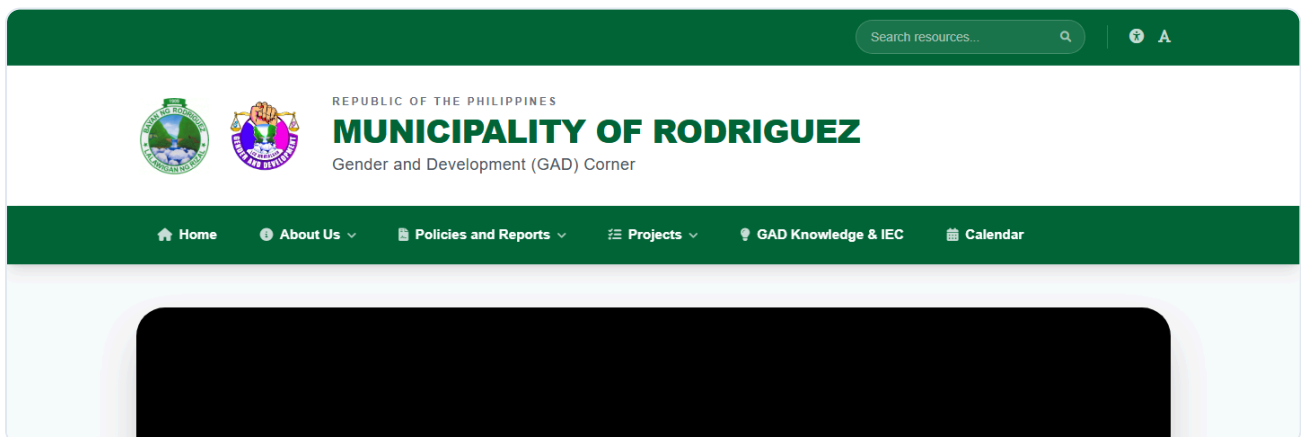

★ FEATURED

React

GovTech

Web

The official digital hub for Gender and Development (GAD) initiatives of Montalban, Rizal — a centralized portal for GAD news, programs, and services. Features news and article publishing, a media gallery of community programs, and quick-access resources like the GAD Plan & Budget, GAD Projects, and Knowledge & IEC materials.

DTR Tracker App

[React Native](#)[Expo](#)[Mobile](#)

A Daily Time Record app for tracking work shifts — morning, afternoon, and overtime clock-ins with a live dashboard, daily progress, goal tracking, and a full history view with monthly totals. Built with React Native & Expo.

Bachelor's Degree in Information Technology

[Class of 2026](#)

Graduated with a degree focused on modern web and mobile development.

BEYOND THE CODE

Curious Explorer

Constantly exploring and researching new topics to expand my perspective and knowledge.

Gamer

When I'm not coding, you can find me casually dropping into PUBG Mobile matches.
